

PAUL PERESS PROJECT - PRESS RELEASE

"A MUST SEE ARTIST, AND MASTER DRUMMER" – Los Angeles Times

THE PAUL PERESS PROJECT – led by Grammy nominated composer, producer, and drummer, Paul Peress – has captivated audiences in over 20 countries, from Joy Of Jazz Johannesburg South Africa, to BET Jazz St Lucia, to NYC's Lincoln Center Out of Doors, to Kaslo Jazz Etc in B.C. Canada, and many magical stops in between.

"It's not only about bringing my music to diverse audiences in distant places, it's more about the exchange, the interaction, learning about other cultures, meeting new folk, and then embracing that energy and growth to be a better person and to make new honest music with a greater world view."

They are traveling in support of their latest album – ***FALLING AWAKE***:

"Personally and professionally, this record embodies the influences that have inspired me to make and perform music," said Peress. "It's Jazzy, Bluesy, and Soulful, with some hard hitting guitar-driven tunes on one end and slow ethereal thought provoking songs on the other. I can't wait to share that energy with listeners and am amped to see the unfolding of this next musical adventure."
